

Telecom Business Solutions Ltd. will participate in international procedures of NATO

Telecom Business Solutions Company Ltd. has been approved and included in the database of candidates to participate in international procedures of NATO

Sofia, 15.03.2010 - "Telecom Business Solutions " Ltd. was approved and enlisted in the database of candidates to participate in international bid procedures of the North Atlantic Treaty Organization (NATO). The company has demonstrated its experience, positive business reputation and its financial, technical and professional capabilities in preparing and executing of complete telecommunication projects. Since Bulgaria's NATO accession many opportunities to participate in the international bid procedures of NATO lie in front of the Bulgarian companies. The organization will finance projects and programs to build infrastructure, for supply of equipment, goods and services from its budget. Deliveries within NATO are decentralized and carried out by the headquarter, military commanders and other agencies of NATO.

Department "NATO and Economic Aspects of Security"(NATO and ISA) in the Ministry of Economy, Energy and Tourism is the body which coordinates the participation of Bulgarian companies in the international bid procedures of NATO - organizes the review of documents of the applicants for participation in the international bid processes and their enlistment in the MEE database, the activities of the international procedures declaration and the nomination of candidates.

The database of all Bulgarian companies approved to participate in international NATO procedures can be found on the website of the Ministry of Economy, Energy and Tourism.
